**V/WELD EQUIPMENT**

**V-WELD**, Welding Column-Boom are suitable for Light engineering to Heavy fabrication industry. V-WELD offers, welding column-boom in Light duty, Medium duty, Heavy duty & Extra heavy duty series to cater various welding needs. Welding column-boom has various movements ( from two axis to five axis) depending upon requirements & configurations. Various welding heads can be deployed with column-boom like MIG, TIG, Sub-Arc etc.

### Welding Column-Boom Type:

- Light duty welding column-boom ( **VLWM**) for light loads- upto 4mtr
- Medium duty welding column-boom ( **VMWM**) for medium loads- upto 6.5 mtr
- Heavy duty welding colum-boom ( **VHWM**) for heavy loads- upto 8 mtr
- Extra heavy duty welding column-boom ( **VEHWM**) for extra heavy loads- upto 11.5 mtr

### Movements of Welding column-boom:

- a. Boom Vertical Lift
- b. Boom Horizontal Travel

### Movements of Welding column-boom:

- c. Column Swivel- Manual type /Motorized type
- d. C&B- Fixed Base/Motorized type
- f. Custom build further axis

**HEAVY DUTY WELDING COLUMN-BOOM WITH POSITIONER FOR CRITICAL TIG WELDING SETUP**

**EXTRA HEAVY DUTY WELDING COLUMN-BOOM WITH TWIN MIG HEADS**

**LIGHT DUTY COLUMN-BOOM FOR MIG WELDING SETUP**

Due to policy of continious improvements, V-WELD reserve the right to modify their specifications without prior notice.
